

# 8.4" Modero ViewPoint Touch Panel

## MVP PERFORMANCE

AMX introduces an exciting addition to its award-winning family of Modero Touch Panels: The 8.4" Modero ViewPoint (MVP-8400). This 802.11b-based wireless handheld panel, which includes a number of astounding multimedia features and useful accessories, is just the right size for convenient, comfortable one-touch control in any integrated environment. The MVP-8400 is the ultimate user interface, combining wireless mobility, Table Top functionality, and Wall/Flush Mount flexibility. A state-of-the-art Touch Panel solution at an affordable price. Together with the 7.5" Modero ViewPoint (MVP-7500), the MVPs are the most versatile AMX Touch Panels on the market today.

## WIRELESS CONVENIENCE

Experience high-end control capabilities without the wires. A fully compatible standard 802.11b Wi-Fi Card provides additional control features and eliminates the inconvenience of installing and using cables. Both 38 KHz and 455 KHz 1-way IR are also built in. The MVP-8400 provides dealers a clean, seamless, unobtrusive Touch Panel solution. For end users, the ability to take control from anywhere, at any time.

## COMPUTER CONTROL

The AMX exclusive Computer Control feature delivers remote access and control of any networked computer directly to the MVP-8400. Launch digital music on your MP3 player. Cruise the Internet. Check and respond to email. Open software files and launch applications. Anything that can be done on the PC can now be accomplished through the MVP-8400, all at the simple touch of a button.

## SCREEN TEST

The MVP-8400's high brightness, high contrast 8.4" active matrix LCD reveals 800x600 pixels of resolution with 18-bit color depth and 8-bit transparency. With 180 cd/m<sup>2</sup> peak brightness and an amazing 350:1 contrast ratio, graphics and icons appear sharp and intense.

## CONQUERING THE GLARE

The anti-glare overlay on the MVP-8400's display eliminates possible glare. The display remains clear, vivid and easy-to-read in all settings, from natural to fluorescent lighting.

## G4 GRAPHICS ENGINE

A feature of all the award-winning Modero Touch Panels, the G4 graphics engine on the MVP-8400 creates icons that can flip, spin, morph, and expand at your touch. The animated G4 graphics offer convenient 2-way feedback for the entire AMX Control System. Anti-aliased fonts ensure crisp, clean and clear text – easy to read, easy to take control.

# 8.4" Modero ViewPoint Touch Panel

## **MVP-8400 (FG5965-02)**

### **LCD**
